Quality Policy Statement

Quality Policy Statement

Corehard Ltd will continue to invest both in equipment and in people to provide our customers with best possible solutions to their individual needs.

We shall endeavour to work with our staff, customers and suppliers to respond to the changing nature of the civil engineering and Utility industry and will actively challenge the way in which we operate to ensure that we remain at the cutting edge of these industries.

Quality objectives are set and are regularly reviewed through the Management Review Process.

Corehard will continually improve efficiency and effectiveness of its Quality Management System, work quality assured measurement, list and dispute resolution. To achieve this Corehard provides GPS maps, NRSWA technical support, coring programmes, plant protection and CAD services.
